ABSTRACT

This volume contains author and subject indexes for volumes 1 through 43 (1929-1975) of "Research Studies," a scholarly, multi-disciplinary quarterly published at Washington State University. Each author index entry includes the title, volume, and inclusive pagination of the article. The subject index is a keyword-out-of-context compilation of title keywords, and refers readers to the author index for the complete citation. (KP)

USER BEWARE: Note that the Subject Index is a Key-word-out-of-context compilation; the key words in a title are lifted to serve as subject entry points, and therefore a little more effort and imagination will be required of the user to arrive at his destination. The numbers following subject entries refer back to the author section for the full citation. And the numbers following the Author - Title entries refer to volume and inclusive pagination of each article.
